S*ignode Packaging Systems is a multinational manufacturer and supplier of steel and plastic strapping, stretch film, pressure sensitive carton sealing tape and the application equipment and accessory products for each. For over 90 years, we have been helping our customers improve their profits by reducing the costs they experience in moving their products to market. Our products are used throughout the world in a broad range of industries to secure everything from cotton bales and newspapers to steel coils and corrugated cartons.*

Products for a changing marketplace

A firm commitment to research and development has earned our company a reputation for being at the forefront of packaging innovation. We provide our customers with advanced solutions that increase production efficiency, improve load integrity and reduce operating costs. Over the years, we've constantly refined our existing products and created new ones to address evolving technologies and to meet our customers' ever-changing needs. That responsiveness has made Signode the industry leader in protective packaging systems.
