SIGNODE HBX-4300™ STAINLESS STEEL

Semiautomatic stainless steel plastic strapping machine

The new HBX-4300™ semiautomatic strapping machine is the simplest, most reliable general-duty strapping machine on the market today. With 40% fewer parts and more timesaving features, the HBX-4300 machine simplifies operation and maintenance to save you time and money.

Unmatched simplicity

The HBX-4300's simple yet durable design eliminates the use of drive belts and clutches. This combined with a number of other features make it easier to operate and maintain than other strapping machines.

- Jam-resistant technology
- Bi-directional coil loading
- Out-of-strap feature
- Fully accessible strap path
- Toolless hot knife removal
- Automatic cut-off and refeed option

Reliable packaging

Designed for reliable packaging under harsh conditions, the HBX-4300 is built with a number of stainless steel components, making it ideal for packaging applications where corrosion resistance is necessary.

Stainless steel components

- Frame
- Rear panels
- Dispenser door
- Legs
- Slack box
- Electrical door

Save on strapping costs with the HB Series plastic strapping

The new HBX-4300 utilizes Signode's newest Contrax® polypropylene strapping. HB Series strapping has the same durable properties as regular Contrax with more strap per coil.

- HB 612 9 mm Contrax coils – 16,000 feet per coil
- HB 812 12 mm Contrax coils – 12,000 feet per coil

HBX-4300 Chute inner dimensions

	in.	mm
A*	28	710
B	20	510

*Inner dimension A is maximum package size.

HBX-4300 Specifications
