

EZ GRAB LoadLoc®

a revolution in load handling

EZ Grab LoadLoc®* Sheets are superior to standard slip sheets in performance and cost.

An ITW innovation in palletless handling, **ITW EZ Grab LoadLoc® Sheets** end your load shifting problems and are made from a proprietary blend of food-grade recycled and virgin plastic resins. They give you:

- raised tabs for easier grabbing with your push-pull attachment
- increased tab integrity – fewer failed tabs
- dimpled top surface to eliminate load migration
- all the advantages of ITW standard plastic slip sheets

100% recyclable, **EZ Grab LoadLoc® Sheets** are manufactured to load weight specifications and packaged for improved operator ease.

*patent pending

EZ Grab LoadLoc® Sheets:

- resist moisture and bacteria
- save valuable storage space
- decrease freight cost
- cost less per platform
- require no repairs
- increase product stabilization
- reduce load migration
- end rodent and insect damage

Call ITW today to check out the **EZ Grab LoadLoc®**. You'll be glad you did!

Through **ITW's National Recapture Program** we buy back and recycle used, clean **EZ Grab LoadLoc® Sheets**. We even arrange transportation and pay the freight from your location to ours. It's a great way to both help the environment and boost your bottom line.
